

TEAM BUILDING, KICK-OFF AND JUST FOR FUN!

A lesson can be a part of a teambuilding program or as a energizing kick-off activity or just for fun!

A lesson can be given for 1 up to 100+ participants and can last between 1 to 3 hours. In the case of large groups it is possible to split the lesson into two parts. Off course it is possible for us to offer other arrangements.

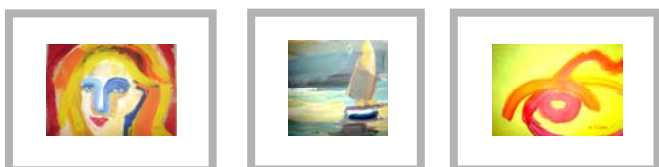

CREATIVE PAINTING COMES TO YOU

Creative Painting comes to your company or to any other place you wish, for example a conference facility.

NEW

FRAMING YOUR ARTWORK

Creative Painting offers the service of framing the final artworks. A nice way to share the participants creativity with others.

Creator for 23 years in the newspaper- and advertisementmarket, art and media education.

TEAM BUILDING CREATIVE PAINTING

FEEL THE JOY TO CREATE
WITHOUT PRE-KNOWLEDGE
WITH RELAXING
BACKGROUND MUSIC

INCREASE YOUR CREATIVITY AND WELLBEING

A typical lesson contains four parts:

RELAXATION

You need some moments of calmness if you are going to feel the joy to create. Therefore the lesson starts with a short relaxation exercise. After that the different painting exercises in combination with music will bring you into the mood to create.

PAINTING TOGETHER

At first we all paint together on a large paper with suitable music in the background. We will use a lot of paint and broad paintbrushes in order to create towards a common goal.

PAINTING ON YOUR OWN

During the lesson you will be doing different types of exercises and listen to varied music. You will discover that your own experiences and ideas will be shown into your pictures.

FINAL DISCUSSION

Together we will look through and discuss the result of our work. That will bring great joy to us all. The final discussion will give you a opportunity to explain and present the meaning of you pictures.
